

BOARD OF MEDICOLEGAL INVESTIGATIONS
OFFICE OF THE CHIEF MEDICAL EXAMINER

SUPPLEMENTAL REPORT 

NAME Kenneth M. Trentadue DATE 31 March 98 CASE NO. 9504017

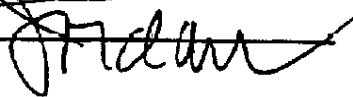

13:00

Met for two + hours with Det's Randy Scott + Gary Eastridge, Mr. Richard Wintony, + Kevin Rowland.

The Detectives went over their findings to date in detail. Although their finalization is a while off it should not be long.

 Mr. Wintony expressed his desire to hold a press conference expressing, among other things, his regrets to the employees of the FTC for the length of the investigation and problems it may have caused them. I stated my opinion that it was their policy + procedure that set this unimaginable train of events in place that required remediation by the OCPD, and that many people had been hurt + unconvinced besides them. I will be further disappointed if more political posturing occurs and I think it is quite inappropriate. I further reminded him that in my opinion the fact that the family of the deceased had to do the initial investigation is perhaps where a real apology belongs.
